Azalea

Azaleas are flowering shrubs in the genus *Rhododendron*, particularly the former sections *Tsutsusi* (evergreen) and *Pentanthera* (deciduous). Azaleas bloom in the spring (April and May in the temperate Northern Hemisphere, and October and November in the Southern Hemisphere),[1] their flowers often lasting several weeks. Shade tolerant, they prefer living near or under trees. They are part of the family *Ericaceae*.
